**GREG SAMPLES** is a Knoxville native, graduate of Central High School and holds a Bachelor degree in psychology from the University of Tennessee. At the age of 34, he was experiencing chronic chest pains. At about the same time his father died from heart disease. In search of a healthier lifestyle in 1985, he adopted a lifestyle based on the eastern principle of balancing energy, known as macrobiotics. The result was that the chest pains stopped with the side effect of a 70 pound weight loss. He continues to follow those principles today. He studied macrobiotics between 1985 and 1988 at the Kushi Institute in Boston, MA, and at Becket, MA with Michio Kushi, the leading authority on macrobiotics in the world. These studies included how the body can heal itself given the proper environment. By 1986 he began sharing this lifestyle and principle in the Knoxville area and throughout the southeast. In 1988, he cofounded the Macrobiotic Center of Knoxville, Tennessee and has taught and counseled thousands since that time with positive results for almost every common affliction experienced in modern America. He is the author of the *Health and Freedom Manual*, first published in 1998. Email; [gregsamples@usit.net](mailto:gregsamples@usit.net)

**BEVERLY STEPHAN** is a Mystical Healing Artist, Ordained Minister, Medium. Raised with a strong Catholic background, she resonated with some of the teachings but felt strongly something was missing. She became absorbed in mysticism and metaphysics. This began an intense study of Spiritualism that has driven her down a fascinating path of joy and happiness. In April of 2004 in a blissful session of connectedness, my joy guide, Anniassa, softly surrounded her aura and gave her the gift of healing. Beverly discovered a mystical color process that would allow her to communicate with Anniassa for the benefit of others. Anniassa bonds with someone's guides and angels then conveys the message to me through the paint. This amazing mystical artwork brings forth in vivid color secret symbols and messages. It becomes ones own personal artwork suitable for framing and altar art. Check out her website [www.beverlystephen.com](http://www.beverlystephen.com)
