Special Guest Speaker, Saturday 6:15pm

Author, investigative mythologist and guest host of the popular radio show "Dreamland", William Henry invites you on a quest of revelation. William has spent the last year investigating the wealth of spiritual symbolism in the U.S. Capitol. His newest book *"Freedom's Gate: The U.S. Capitol Code Revealed*" is due in June.

William reveals his discovery of the powerful prophecy in the Capitol, how it is being re-visioned for 2012, and how it can be used to create the soul's ultimate perfection, the Light Body. Included are newly recognized views of the U.S. Capitol as a temple of Transformation.

William explains:

*The symbolism in the dome painting of a deified George Washington sitting on a Rainbow Throne.

*That the U.S. Capitol building is actually a temple, a mirror image of the Vatican and Solomon's Temple.

At the heart of the New American Revolution is the idea of transformation…not of a system of government, but of human beings. "Freedom's Gate" explores the Founding Fathers' vision of America as a place where our individual and planetary metamorphosis into Light can be achieved. This is true freedom, our true cosmic goal

And America was chosen as a physical and psychological space where this is achievable!

William takes you on a journey using hundreds of slides of symbols & art, both modern & ancient, that enable you to see, feel and experience the secrets of enlightenment with power & clarity. The result is a phenomenal experience that anchors & activates knowledge & energy deep within your light body. The group mind of the weekend helps to enlighten each other by using the power of our collective imagination to focus and reflect our highest selves. You'll be amazed at the levels of spiritual advancement you'll experience. His website is www.**williamhenry.net**
